Overview

When you're considering entertainment for a family event, consider *Shenanigans - The Family Magic Show*.

I strongly believe in family-style entertainment - families, parents and children sitting together - enjoying the show together. I believe that this type of show must play at different levels all at the same time, offering something for everyone.

And by having families sitting together you gain a certain synergy: parents laugh because their children laugh; children laugh because their parents do! And if a child realizes that they don't understand something, mom or dad is there to explain, reinforce, or repeat what just happened.

Shenanigans - The Family Magic Show is a highly proven show that does exactly that. It features magical effects geared specifically to today's family audiences and caters to a wide range of ages, from young children to preteens and adults.

You and your guests will experience play-like "schtick" for pre-schoolers, plenty of audience participation and comedy for those in the primary grades, and somewhat more intellectual material for the more mature guests. The result is a show that works at multiple levels; providing a fun-filled show for both the young and the young at heart.

There is truly something for everyone and everyone gets involved when Ron takes the stage!
